

## DEAR COLLEAGUES!

The Ministry of Transport of the Russian Federation, Petersburg State Transport University, Scientific Research Center "Vagony", All-Union Research and Development Center for Transportation Technology, Association of railcar users and Manufacturers, Tikhvin trial centre for railway technology have the honor to invite you to take part in the XV International Scientific and Technical Conference "XXI CENTURY ROLLING STOCK (IDEAS, REQUIREMENTS, PROJECTS)".

The conference goal is to discuss new advanced ideas and engineering solutions in development of railway rolling stock. Conference sections include:

- Design, testing, maintenance and operation of freight rolling stock;
- Design, testing, maintenance and operation of passenger rolling stock;
- Dynamics, structural strength and reliability;
- General problems, transport policy, economics.

The conference has oral and poster sessions. Conference scientific committee judging upon the abstract makes decision.

Conference languages are Russian and English. During the conference simultaneous interpreting is provided.

## CONFERENCE PROCEEDINGS

Book of abstracts is published before conference and handed over to participants upon registration.

The outcome of the conference will be published in a peer-reviewed papers electronic edition of PGUPS indexed in RISC.

Articles submitted selected by the organizing committee of the conference will be published in the journal "Proceedings of Petersburg Transport University", included in the approved list of journals by Higher Attestation Commission of Russia.
